
AT&T U-Verse in Weatherly?

Posted by sbenton151 - 2009/11/06 10:08

Does anyone have any kind of inside info on when AT&T is going to roll out U-verse service to Weatherly? "U-verse" for those not familiar is AT&T's IPTV offering for TV/Broadband/Voice that offers, I believe, up to 18 Mbps download speeds. I have standard DSL now and can only get 1.5 Mbps, so hope U-verse is soon.
